SUMMARY

A dedicated computer science student and aspiring Full-Stack Developer with a deep understanding of Data Structures and Algorithms in Java(DSA), and also has an interest in machine learning. With a constant eagerness to learn and adapt to this evolving world of technology, I'm eager to help you with my knowledge and skills.

EDUCATION

Nitte Meenakshi Institute of Technology, Bengaluru <i>Bachelor of Engineering, Computer Science and Engineering</i>	CGPA: 8.97 2023-2027
Government Pre-University College, Gadag	95.83 % 2020-2022
Bapuji Vidyaniketan High School, Annigeri	96.00 % 2019-2020

SKILLS

Programming Languages — Java, Python, C

CS Fundamentals — Data Structures and Algorithms, Object-Oriented Programming with Java, DBMS, Operating Systems, Networking, Data Science, Data Visualization

Databases — MySQL, MongoDB

Web Development — HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs, Tailwind CSS, Mongoose, UI/UX Design

Tools — Git, GitHub, Postman, Visual Studio Code, Figma

Soft Skills — Communication, Logical Reasoning, Teamwork, Problem Solving, Public Speaking

PROJECTS

- AI-Powered Smart Campus Multi-Modal GPT for Colloquium Events** [2026] [Current]
- Developed an AI-powered colloquium platform that extracts event details from PDF/DOCX notices, stores them in a centralized database, and enables users to search for events and get real-time answers through a text/voice chatbot.
 - Tech Stack:** Python, FastAPI, React.js, PostgreSQL, NLP, Web Speech API, REST APIs, GitHub.
- CivicFix – AI-Powered Civic Issue Reporting Platform** [2026]
- Developed a full-stack civic issue reporting platform that enables citizens to report and track public infrastructure problems, featuring AI-based issue classification, complaint management, location tracking, and real-time status updates to improve resolution efficiency and transparency.
 - Tech Stack:** React.js, Node.js, Express.js, MongoDB, Gemini API, JWT Authentication, Leaflet Maps, JavaScript, REST APIs.
- PassOP-Personal Password Manager** [2025]
- Developed a secure password management backend with CRUD APIs for storing and managing user credentials, enabling seamless client-server communication through JSON-based RESTful services.
 - Tech Stack:** Node.js, Express.js, MongoDB, REST API, JavaScript.
- Event Management System (DBMS)** [2025]
- Developed an Event Management System for efficient event scheduling and participant management, implementing CRUD operations, optimized SQL queries, and relational database design to ensure data consistency and efficient data handling.
 - Tech Stack:** SQL, DBMS, Node.js, REST API.

ACHIEVEMENTS WITH CERTIFICATES

- Java Foundation certification (Infosys)** 🏆 — [2025]
- Citizen Data Science using Python Certification (Infosys)** 🏆 — 2025
- Operating System Basics (Cisco)** 🏆 — [2025]
- MongoDB Java Developer Path** 🏆 — [2025]
- JFSD: All About Planning and Designing UI (SimpliLearn)** 🏆 — [2026]
- Machine Learning Foundation Certification** 🏆 — [2026]
